LEGISLATIVE COUNSEL'S DIGEST

SB 1445, as amended, DeSaulnier. Planning.

(1) Existing law creates the Strategic ~~Planning~~ *Growth* Council consisting of the Director of State Planning and Research, the Secretary of the Natural Resources Agency, the Secretary for Environmental Protection, the Secretary of Business, Transportation and Housing, the Secretary of California Health and Human Services, and one public member appointed by the Governor. Existing law specifies the powers and duties of the council with respect to identification and review of activities and programs of member agencies that may be coordinated to improve certain planning and resource objectives and associated matters, including provision of financial assistance to support the planning and development of sustainable communities. Existing law requires the council to report to the Legislature not later than July 1, 2010, and every year thereafter, on the financial assistance provided.

This bill would instead provide for an initial reporting date of July 1, 2012. The bill would require the council to coordinate certain of its activities with the Planning Advisory and Assistance Council.

(2) Existing law creates the Planning Advisory and Assistance Council in the Office of Planning and Research in the Governor's ~~Office~~

office, with a specified membership appointed by the Director of State Planning and Research consisting of representatives of cities, counties, each regional planning districts, and Indian tribes and bands, from persons nominated by those entities. Existing law requires the council to provide advice on certain planning matters, including the preparation of state long-range goals and policies, and evaluation of the planning functions of various state agencies.

This bill would delete the reference to regional planning districts and instead require 7 of the council's members to be appointed from the governing boards of specified regional planning organizations. ~~This~~ The bill would also provide for the appointment of one member each from the California Transportation Commission, the State Air Resources Board, the State Energy Conservation and Development Commission, the Speaker of the Assembly, and the Senate Committee on Rules. ~~This~~ The bill would expand the duties of the council by requiring it to work with the Strategic Growth Council and various regional and local agencies to facilitate the implementation of regional blueprint plans, and to develop and propose recommendations to the Strategic Growth Council and certain state agencies in order to facilitate coordination between regional blueprint plans, state growth and infrastructure plans, and programs that facilitate the implementation of regional blueprint plans. ~~This~~ The bill would also require reports by the council to the Legislature on specified matters.

(3) Existing law requires certain transportation planning activities by designated regional transportation planning agencies, including development of a regional transportation plan. Certain of these agencies are designated under federal law as metropolitan planning organizations. Existing law requires metropolitan planning organizations to adopt a sustainable communities strategy, subject to specified requirements, as part of a regional transportation plan, which is to be designed to achieve certain targets established by the State Air Resources Board for the reduction of greenhouse gas emissions from automobiles and light trucks in the region.

This bill would increase the registration fee imposed by the state on the registration of each vehicle by \$1, and require the Department of Motor Vehicles to distribute ~~5%~~ 1% of the net revenues from the fee increase to the Planning Advisory and Assistance Council. The remaining net revenues would be distributed to designated transportation planning agencies based on the number of vehicles registered within the jurisdiction of each agency. The bill would require the transportation

planning agencies to use the funds solely to develop and implement a sustainable communities strategy ~~or, a regional blueprint plan, or a rural transportation plan element~~ in order to identify land use strategies to reduce the use of motor vehicles and to carry out transportation-related activities in the strategy ~~or, plan, or plan element~~ and, in the case of an agency preparing a regional blueprint plan, to provide grants to cities, counties, and congestion management agencies for planning and projects related to implementation of the plan. The bill would also provide for sharing of available revenues between various agencies, as specified.

(4) The bill would also make legislative findings and declarations.

Vote: majority. Appropriation: no. Fiscal committee: yes.

State-mandated local program: no.

The people of the State of California do enact as follows:

1 SECTION 1. The Legislature finds and declares as follows:

2 (a) Uncoordinated and unplanned growth together with a lack
3 of common goals to effect the public's interest in the conservation
4 and wise use of our lands pose a threat to the environment,
5 sustainable economic development, and the health, safety, and
6 high quality of life enjoyed by residents of this state.

7 (b) The enactment of Senate Bill 375 of the 2007–08 Regular
8 Session (Chapter 728 of the Statutes of 2008) and the establishment
9 of requirements for regional transportation plans to address
10 greenhouse gases can only be successfully implemented if regional
11 and local governments have the tools they need to collaboratively
12 plan for the type of growth that can achieve these goals, and if that
13 collaborative planning is coordinated with the efforts of the
14 Governor's Strategic Growth Council and other state agencies as
15 required by the enactment of Senate Bill 732 of the 2007–08
16 Regular Session (Chapter 729 of the Statutes of 2008).

17 (c) The successful development of sustainable communities
18 strategies as part of regional transportation plans and
19 implementation of those strategies by the amendment of city and
20 county general and specific plans will result in significantly
21 reduced vehicle travel. The reduced travel will reduce greenhouse
22 gas emissions and air pollution and provide environmental benefits
23 that mitigate the adverse impacts associated with vehicle use. The
24 resulting reduction in traffic congestion provides a user benefit to

1 all vehicle owners which is at least equal in value to a fee of two
2 dollars (\$2) per vehicle annually.

3 (d) Cooperation between regional and local governments and
4 air districts is essential to the achievement of the greenhouse gas
5 emission reductions envisioned in regional transportation plans.

6 (e) Therefore, it is in the public interest that state residents,
7 communities, local governments, air districts, and the private sector
8 cooperate and coordinate with one another in comprehensive,
9 sustainable land use planning.

10 (f) It is the intent of the Legislature to update the duties and
11 composition of the Planning Advisory and Assistance Council to
12 assist in the state's land use planning processes by providing
13 funding to support the development and implementation for
14 regional blueprints and related planning and to work with state
15 agencies providing funding for resource protection and local
16 infrastructure to facilitate coordination between state planning and
17 funding decisions and regional blueprints.
