An act to add *and repeal* Article 8.3 (commencing with Section 999.90) ~~to~~ of Chapter 6 of Division 4 of the Military and Veterans Code, relating to military and veterans.

LEGISLATIVE COUNSEL’S DIGEST

AB 557, as amended, John A. Pérez. Veterans: National Guard: California Interagency Council on Veteran Services and Programs.

Existing law provides certain protections and benefits for veterans and members of the National Guard.

This bill would create in state government the California Interagency Council on Veteran Services and Programs, composed of specified members, for the purpose of bringing together key state agencies and departments, federal officials, legislative representatives, local governments, and stakeholder organizations to ensure that the state’s programs that serve veterans are efficiently administered and properly integrated with federal and local government and other stakeholder organizations. *The bill’s provisions would remain in effect until December 31, 2017.*

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.

The people of the State of California do enact as follows:

SECTION 1. Article 8.3 (commencing with Section 999.90) is added to Chapter 6 of Division 4 of the Military and Veterans Code, to read:

Article 8.3. California Interagency Council on Veteran Services
and Programs

999.90. The Legislature hereby finds and declares all of the following:

(a) The care of veterans and our National Guard members and their families cannot be neglected, especially while the country remains at war.

(b) The needs of California's over two million veterans and their families are diverse and the challenges they face are many. The issues, including, but not limited to, supportive housing, homelessness, mental health, and job training, affect veterans from the World War II and Vietnam eras to younger veterans returning from Operation Iraqi Freedom and Operation Enduring Freedom.

(c) While the federal government has a primary role in providing for the care of our veterans, the programs and services offered by the federal government do not address the needs of many of our veterans in a comprehensive manner, and consequently the gaps in service are increasingly defaulting to state and local providers.

(d) A 2009 audit performed by the Bureau of State Audits found that the Department of Veterans Affairs provides few direct services to veterans, outside of its operation of the Veterans' Homes of California and the CalVet Farm and Home Loan program, and that the department has extremely limited interaction and few formal agreements with other state agencies and departments that could provide additional services to veterans if done in a coordinated and efficient manner.

(e) The 2009 audit additionally noted that the Department of Veterans Affairs strategic plan covering the 2007–08 to 2011–12 fiscal years, inclusive, was incomplete and has not formally assessed veterans' needs, has not included key stakeholders in its strategic planning process, and has not effectively measured its progress towards meeting the goals and objectives identified in the plan.

1 (f) The 2009 audit additionally confirmed that California's
2 veterans participate in collecting federal disability and pension
3 benefits at rates that are significantly lower than those in other
4 states with large veteran populations. These disability payments
5 are paid directly to the veterans and generate a significant
6 contribution to California's economy.

7 (g) The California Research Bureau recently estimated that there
8 are approximately 29,000 homeless veterans currently in California,
9 and it has been reported that veterans make up over 20 percent of
10 the homeless population. It has also been reported that Operation
11 Iraqi Freedom veterans and Operation Enduring Freedom veterans,
12 and increasingly women veterans, are becoming homeless sooner
13 than veterans from the Vietnam era. Unfortunately, the CalVet
14 Farm and Home Loan program only provides benefits to veterans
15 who want to purchase single-family homes, which does not serve
16 the growing needs of our homeless veteran community and their
17 families, who are increasingly in need of emergency shelter and
18 transitional, multifamily, and supportive housing programs.

16 (3) Discussing with local governments, the private sector, and
17 stakeholder organizations ways to complement or utilize existing

19 potential mechanisms for streamlining the administration of
20 veterans programs across agencies and jurisdictions to reduce

22 access to services.

23 (4) Soliciting input and suggestions from stakeholder
24 organizations, the business community, the concerned public, and
25 other governmental agencies on the most effective strategies to
26 serve veterans.

27 (5) Identifying best practices from other states in serving
28 veterans.

29 (6) Creating a plan for council actions by the end of the first
