SENATE BILL

No. 1118

Introduced by Senator Hancock

February 17, 2012

An act to add Chapter 21 (commencing with Section 42985) to Part 3 of Division 30 of the Public Resources Code, relating to solid waste.

LEGISLATIVE COUNSEL'S DIGEST

SB 1118, as amended, Hancock. Solid waste: used mattresses.

Existing law requires a retailer of various specified products, such as rechargeable batteries and cell phones, sold in the state to have in place a system for the acceptance and collection of those products for reuse, recycling, or proper disposal.

This bill would require manufacturers of mattresses, on and after July 1, 2013, to establish and implement a program to collect and recycle used mattresses from consumers, as specified. The bill would also require a retailer, on and after July 1, 2013, in coordination with a manufacturer, to provide or arrange for the pickup of a used mattress from a consumer purchasing a new mattress. The bill would authorize the manufacturer, in lieu of establishing the program, to remit, on a ~~voluntarily~~ *voluntary* basis, to the Department of Resources Recycling and Recovery a *mattress recovery and recycling* payment of \$25 for each mattress sold in the state. *The department would be required to establish the mattress recovery and recycling payment at an amount that is sufficient for, but does not exceed, the department's costs of implementing a program to facilitate the recovery and recycling of used*

mattresses. The bill would require the moneys remitted to be deposited in the Mattress Recovery and Recycling Account, which the bill would establish in the Integrated Waste Management Fund. The bill would require moneys in the account, upon appropriation by the Legislature, to be expended by the department to implement *a that* program ~~to facilitate the recovery and recycling of used mattresses.~~

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.
