SENATE BILL

No. 1146

Introduced by Senator Pavley
(Coauthor: Assembly Member Solorio)

February 21, 2012

An act to amend Section 13752 of the Water Code, relating to water.

LEGISLATIVE COUNSEL'S DIGEST

SB 1146, as amended, Pavley. Wells: reports: public availability.

Existing law requires a person who digs, bores, or drills a water well, cathodic protection well, or a monitoring well, or abandons or destroys a well, or deepens or re-perforates a well, to file a report of completion with the Department of Water Resources. Existing law prohibits those reports from being made available to the public, except under certain circumstances.

This bill would instead require the department to, upon request, make the reports available to the public. The bill would require the department to provide specified disclaimers when providing the reports to the public. The bill would ~~also allow~~ *authorize* the department to charge a fee for the provision of a report to recover the department's costs, that does not exceed the reasonable costs to the department of providing the report, ~~and~~ *The bill* would require the release of a report to comply with the Information Practices Act of 1977 *and would require the department to redact from the report specified information pertaining to the well owner*. The bill would ~~also~~ require a person who requests a report to provide his or her name, address, *identification number from*

a government-issued source, as provided, and reason for making the request.

Vote: majority. Appropriation: no. Fiscal committee: yes.
 State-mandated local program: no.
