

AMENDED IN SENATE MARCH 26, 2012

SENATE BILL

No. 1285

Introduced by Senator Hernandez

February 23, 2012

~~An act to amend Section 1371.4 of the Health and Safety Code, relating to health care coverage. An act to amend Section 1371.4 of, and to add Article 3 (commencing with Section 127465) to Chapter 2.5 of Part 2 of Division 107 of, the Health and Safety Code, relating to health care.~~

LEGISLATIVE COUNSEL'S DIGEST

SB 1285, as amended, Hernandez. ~~Health care service plans: emergency services. Hospital billing: emergency services and care.~~

Existing law provides for the licensure and regulation of health facilities by the State Department of Public Health and requires a licensed facility that maintains and operates an emergency department to provide emergency services and care to any person requesting the services or care for any condition in which the person is in danger of loss of life or serious injury or illness, as specified. Existing law requires hospitals to maintain a written policy regarding discount payments for financially qualified patients as well as a written charity care policy. Existing law requires a hospital to limit the expected payment for services it provides to certain low-income patients to the highest amount the hospital would expect to receive for providing services from a government-sponsored program of health benefits in which the hospital participates. Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the licensure and regulation of health care service plans by the Department of Managed Health Care and makes a willful violation of the act a crime. Existing law requires health care

service plans, or their contracting medical providers, to reimburse providers for emergency services and care provided to its enrollees until the care results in stabilization of the enrollee.

This bill would require a hospital with an out-of-network emergency utilization rate of 50% or more to adjust its total billed charges for emergency services and care provided to a patient prior to stabilization to an amount no greater than the amount the hospital could expect to receive from Medicare for the services and care or, if there is no established payment amount by Medicare or if that amount is not sufficient to cover the actual cost to the hospital, an amount no greater than a good faith and reasonable estimate of the actual cost of providing the necessary services and care, as specified. The bill would specify that this provision does not apply to charges billed by emergency physicians, as defined, or to charges provided as treatment for an injury that is compensable for purposes of workers' compensation. The bill would also specify that its provisions do not apply if any other law requires the hospital to limit expected payment for the emergency services and care to a lesser amount, if a contract governs the total billed charges for the emergency services and care, or if a government program of health benefits is the primary payer for the emergency services and care. The bill would require health care service plans or their contracting medical providers to reimburse hospitals in accordance with these provisions. Because a willful violation of that reimbursement requirement by a health care service plan or its contracting medical providers would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

~~Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the licensure and regulation of health care service plans by the Department of Managed Health Care. Existing law requires a health care service plan to obtain timely authorization for medically necessary care when the enrollee has received emergency care services but, in the opinion of the treating provider, cannot yet be discharged safely. Existing law provides that in case of a disagreement between the health care service plan and the provider regarding the need for~~

necessary medical care, the plan shall assume responsibility for the care of the patient, as specified.

~~This bill would make a technical, nonsubstantive change to these provisions.~~

Vote: majority. Appropriation: no. Fiscal committee: ~~no~~ yes.
State-mandated local program: ~~no~~ yes.

The people of the State of California do enact as follows:

1 SECTION 1. Section 1371.4 of the Health and Safety Code is
2 amended to read:

3 1371.4. (a) A health care service plan that covers hospital,
4 medical, or surgical expenses, or its contracting medical providers,
5 shall provide 24-hour access for enrollees and providers, including,
6 but not limited to, noncontracting hospitals, to obtain timely
7 authorization for medically necessary care, for circumstances where
8 the enrollee has received emergency services and care is stabilized,
9 but the treating provider believes that the enrollee may not be
10 discharged safely. A physician and surgeon shall be available for
11 consultation and for resolving disputed requests for authorizations.
12 A health care service plan that does not require prior authorization
13 as a prerequisite for payment for necessary medical care following
14 stabilization of an emergency medical condition or active labor
15 need not satisfy the requirements of this subdivision.

16 (b) A health care service plan, or its contracting medical
17 providers, shall reimburse providers for emergency services and
18 care provided to its enrollees, until the care results in stabilization
19 of the enrollee, except as provided in subdivision (c). As long as
20 federal or state law requires that emergency services and care be
21 provided without first questioning the patient's ability to pay, a
22 health care service plan shall not require a provider to obtain
23 authorization prior to the provision of emergency services and care
24 necessary to stabilize the enrollee's emergency medical condition.

25 (c) Payment for emergency services and care may be denied
26 only if the health care service plan, or its contracting medical
27 providers, reasonably determines that the emergency services and
28 care were never performed; provided that a health care service
29 plan, or its contracting medical providers, may deny reimbursement
30 to a provider for a medical screening examination in cases when
31 the plan enrollee did not require emergency services and care and

1 the enrollee reasonably should have known that an emergency did
2 not exist. A health care service plan may require prior authorization
3 as a prerequisite for payment for necessary medical care following
4 stabilization of an emergency medical condition.

5 (d) If there is a disagreement between the health care service
6 plan and the provider regarding the need for necessary medical
7 care, following stabilization of the enrollee, the plan shall assume
8 responsibility for the care of the patient either by having medical
9 personnel contracting with the plan personally take over the care
10 of the patient within a reasonable amount of time after the
11 disagreement, or by having another general acute care hospital
12 under contract with the plan agree to accept the transfer of the
13 patient as provided in Section 1317.2, Section 1317.2a, or other
14 pertinent statute. However, this requirement shall not apply to
15 necessary medical care provided in hospitals outside the service
16 area of the health care service plan. If the health care service plan
17 fails to satisfy the requirements of this subdivision, further
18 necessary care shall be deemed to have been authorized by the
19 plan. Payment for this care may not be denied.

20 (e) A health care service plan may delegate the responsibilities
21 enumerated in this section to the plan's contracting medical
22 providers.

23 (f) Subdivisions (b), (c), (d), ~~(g)~~ (h), and ~~(h)~~ (i) shall not apply
24 with respect to a nonprofit health care service plan that has
25 3,500,000 enrollees and maintains a prior authorization system
26 that includes the availability by telephone within 30 minutes of a
27 practicing emergency department physician.

28 (g) *A health care service plan, or its contracting medical*
29 *providers, that is obligated to reimburse providers for emergency*
30 *services and care provided to its enrollees prior to stabilization*
31 *pursuant to subdivision (b) shall reimburse hospitals in accordance*
32 *with Section 127466.*

33 ~~(g)~~

34 (h) The Department of Managed Health Care shall adopt by
35 July 1, 1995, on an emergency basis, regulations governing
36 instances when an enrollee requires medical care following
37 stabilization of an emergency medical condition, including
38 appropriate timeframes for a health care service plan to respond
39 to requests for treatment authorization.

40 ~~(h)~~

(i) The Department of Managed Health Care shall adopt, by July 1, 1999, on an emergency basis, regulations governing instances when an enrollee in the opinion of the treating provider requires necessary medical care following stabilization of an emergency medical condition, including appropriate timeframes for a health care service plan to respond to a request for treatment authorization from a treating provider who has a contract with a plan.

(i)

(j) The definitions set forth in Section 1317.1 shall control the construction of this section.

(j)

(k) (1) A health care service plan that is contacted by a hospital pursuant to Section 1262.8 shall, within 30 minutes of the time the hospital makes the initial telephone call requesting information, either authorize poststabilization care or inform the hospital that it will arrange for the prompt transfer of the enrollee to another hospital.

(2) A health care service plan that is contacted by a hospital pursuant to Section 1262.8 shall reimburse the hospital for poststabilization care rendered to the enrollee if any of the following occur:

(A) The health care service plan authorizes the hospital to provide poststabilization care.

(B) The health care service plan does not respond to the hospital's initial contact or does not make a decision regarding whether to authorize poststabilization care or to promptly transfer the enrollee within the timeframe set forth in paragraph (1).

(C) There is an unreasonable delay in the transfer of the enrollee, and the noncontracting physician and surgeon determines that the enrollee requires poststabilization care.

(3) A health care service plan shall not require a hospital representative or a noncontracting physician and surgeon to make more than one telephone call pursuant to Section 1262.8 to the number provided in advance by the health care service plan. The representative of the hospital that makes the telephone call may be, but is not required to be, a physician and surgeon.

(4) An enrollee who is billed by a hospital in violation of Section 1262.8 may report receipt of the bill to the health care service plan

1 and the department. The department shall forward that report to
2 the State Department of Public Health.

3 (5) For purposes of this section, “poststabilization care” means
4 medically necessary care provided after an emergency medical
5 condition has been stabilized.

6 SEC. 2. Article 3 (commencing with Section 127465) is added
7 to Chapter 2.5 of Part 2 of Division 107 of the Health and Safety
8 Code, to read:

9
10 *Article 3. Hospital Emergency Pricing*

11
12 127465. (a) For purposes of this article, the following
13 definitions shall apply:

14 (1) “Health care service plan” has the same meaning as that
15 term is defined in Section 1345.

16 (2) “Health insurer” means an insurer that issues policies of
17 health insurance, as defined in Section 106 of the Insurance Code.

18 (3) “Hospital” means a hospital licensed under subdivision (a)
19 or (f) of Section 1250, with an emergency department licensed by
20 the State Department of Public Health.

21 (4) A “local” patient is a patient whose residence is in the same
22 county as the hospital at which the patient receives services and
23 care, or whose residence is in a county adjacent to the county
24 where the hospital at which the patient receives services and care
25 is located.

26 (5) A “major emergency department encounter” means a patient
27 encounter in a hospital emergency department for which the
28 hospital’s total billed charges for all in-patient and out-patient
29 services and care provided, excluding charges billed by an
30 emergency physician, as that term is defined in Section 127450,
31 are greater than the major emergency department encounter
32 threshold, as defined in paragraph (6).

33 (6) On January 1, 2013, the “major emergency department
34 encounter threshold” shall be two thousand dollars (\$2,000).
35 Beginning on April 1, 2013, for an emergency encounter that began
36 on or after April 1 of a given calendar year and through March
37 31 of the following calendar year, the “major emergency
38 department encounter threshold” shall be an amount equal to:
39 \$2,000 x (PPI - 129.9)/129.9. For purposes of this subdivision,
40 “PPI” shall be the Producer Price Index for general medical and

1 surgical hospitals, commodity code 6221, not seasonally adjusted,
2 as it appears in the PPI Detailed Report published by the United
3 States Department of Labor, Bureau of Labor Statistics, as reported
4 in December of the calendar year that precedes the April 1 through
5 March 31 period during which the emergency encounter began.

6 (7) “Primary payer” means the payer, other than the patient,
7 who is or was legally required or responsible to make payment
8 with respect to an item or service, or any portion thereof, before
9 any other payer, other than the patient.

10 (8) “Privately insured patient” means a patient for whom the
11 primary payer is a health insurer or a health care service plan.

12 (9) “Out-of-network” refers to care provided to a patient by a
13 hospital that has not contracted with the patient’s health care
14 service plan or health insurer for reimbursement at a negotiated
15 rate with respect to the care provided.

16 (10) “Out-of-network emergency utilization rate” means the
17 percentage of all major emergency department encounters at a
18 hospital during the course of a calendar year that are
19 out-of-network for local, privately insured patients. This rate shall
20 be calculated by dividing a hospital’s total number of major
21 emergency department encounters during the most recently
22 completed calendar year that involved local, privately insured
23 patients for whom the emergency services and care provided were
24 out-of-network, by the hospital’s total number of major emergency
25 department encounters in the same calendar year of local, privately
26 insured patients; provided that if the calendar year ended within
27 the previous 90 days, data for the calendar year preceding the
28 most recently completed calendar year shall be used.

29 (b) The definitions of Section 1317.1, with the exception of the
30 definition of “hospital,” shall control the construction of this
31 article, unless the context otherwise requires.

32 127466. (a) (1) A hospital with an out-of-network emergency
33 utilization rate of 50 percent or greater shall adjust its total billed
34 charges for emergency services and care provided to a patient
35 prior to stabilization in accordance with paragraph (2). The
36 hospital’s total billed charges subject to adjustment under this
37 subdivision shall not include charges billed by an emergency
38 physician, as that term is defined in Section 127450. This
39 subdivision shall not apply to any hospital that has an

1 out-of-network emergency utilization rate that is less than 50
2 percent.

3 (2) The adjustment made pursuant to this subdivision shall be
4 such that the hospital's total expected payment shall not exceed
5 the amount of payment the hospital reasonably could expect to
6 receive from Medicare for providing the prestabilization emergency
7 services and care if the services and care were subject to payment
8 by Medicare. If there is no established payment amount by
9 Medicare for the emergency services and care provided, or if the
10 established Medicare payment amount is less than the actual cost
11 to the hospital of the prestabilization emergency services and care
12 provided, the adjustment made pursuant to this subdivision shall
13 be such that the hospital's total expected payment shall not exceed
14 a good faith and reasonable estimate of the actual cost of providing
15 the necessary prestabilization emergency services and care.

16 (3) If a contract, including a contract with a health insurer,
17 health care service plan, or other health care coverage provider,
18 governs the adjustment of the total billed charges for the
19 prestabilization emergency services and care provided to a patient
20 by the hospital, the contract shall control and the provisions of
21 this subdivision shall not apply.

22 (4) The adjustment required by this subdivision shall not apply
23 to a hospital's charges for prestabilization emergency services
24 and care provided to a patient as treatment for an injury that is
25 compensable for purposes of workers' compensation.

26 (5) The adjustment required by this subdivision shall not apply
27 to a hospital's charges for prestabilization emergency services
28 and care provided to a patient for whom Medicare, Medi-Cal, or
29 any other government program of health benefits, excluding public
30 employee benefit plans, is the primary payer for those services
31 and care.

32 (6) The adjustment required by this subdivision shall not apply
33 if existing law, including Article 1 (commencing with Section
34 127400), requires a hospital to limit expected payment for
35 prestabilization emergency services and care provided to a patient
36 to an amount that is less than the hospital's total billed charges,
37 as adjusted in accordance with paragraph (2). Nothing in this
38 article shall prevent a hospital from adjusting its total billed
39 charges to limit expected payments for prestabilization emergency

1 services and care to amounts that are less than the total billed
2 charges as adjusted in accordance with paragraph (2).

3 (b) If application of federal law, including Section 2719A of the
4 federal Public Health Service Act (42 U.S.C. Sec. 300gg-19a), and
5 its implementing regulations, requires that a health care service
6 plan or health insurer provide payment for prestabilization
7 emergency services and care in an amount greater than the
8 hospital's total billed charges for those services and care as
9 adjusted in accordance with subdivision (a), the hospital shall
10 adjust its total billed charges such that the total expected payment
11 for the prestabilization emergency services and care shall be the
12 minimum amount that will comply with the applicable federal law.
13 Nothing in this subdivision shall be construed as confirming any
14 federal obligation of a health insurer or health care service plan
15 to provide payments of any particular amount for out-of-network
16 emergency services provided to its policyholders or enrollees prior
17 to stabilization.

18 127467. Nothing in this article shall be construed to require
19 a hospital to modify its uniform schedule of charges or published
20 rates, nor shall this article preclude the recognition of a hospital's
21 established charge schedule or published rates for purposes of
22 applying any payment limit, interim payment amount, or other
23 payment calculation based upon a hospital's rates or charges
24 under the Medi-Cal program, the Medicare Program, workers'
25 compensation, or other federal, state, or local public program of
26 health benefits.

27 127468. A hospital subject to Section 127466 shall provide
28 reimbursement for any amount actually paid in excess of the
29 amount due under this article, including interest. Interest owed by
30 the hospital shall accrue at the rate set forth in Section 685.010
31 of the Code of Civil Procedure, beginning on the date payment is
32 received by the hospital. However, a hospital is not required to
33 provide a reimbursement if the amount due is less than five dollars
34 (\$5).

35 SEC. 3. No reimbursement is required by this act pursuant to
36 Section 6 of Article XIII B of the California Constitution because
37 the only costs that may be incurred by a local agency or school
38 district will be incurred because this act creates a new crime or
39 infraction, eliminates a crime or infraction, or changes the penalty
40 for a crime or infraction, within the meaning of Section 17556 of

1 *the Government Code, or changes the definition of a crime within*
2 *the meaning of Section 6 of Article XIII B of the California*
3 *Constitution.*

4 SECTION 1. ~~Section 1371.4 of the Health and Safety Code is~~
5 ~~amended to read:~~

6 ~~1371.4. (a) A health care service plan that covers hospital,~~
7 ~~medical, or surgical expenses, or its contracting medical providers,~~
8 ~~shall provide 24-hour access for enrollees and providers, including,~~
9 ~~but not limited to, noncontracting hospitals, to obtain timely~~
10 ~~authorization for medically necessary care, for circumstances where~~
11 ~~the enrollee has received emergency services and care is stabilized,~~
12 ~~but the treating provider believes that the enrollee may not be~~
13 ~~discharged safely. A physician and surgeon shall be available for~~
14 ~~consultation and for resolving disputed requests for authorizations.~~
15 ~~A health care service plan that does not require prior authorization~~
16 ~~as a prerequisite for payment for necessary medical care following~~
17 ~~stabilization of an emergency medical condition or active labor~~
18 ~~need not satisfy the requirements of this subdivision.~~

19 ~~(b) A health care service plan, or its contracting medical~~
20 ~~providers, shall reimburse providers for emergency services and~~
21 ~~care provided to its enrollees, until the care results in stabilization~~
22 ~~of the enrollee, except as provided in subdivision (c). As long as~~
23 ~~federal or state law requires that emergency services and care be~~
24 ~~provided without first questioning the patient's ability to pay, a~~
25 ~~health care service plan shall not require a provider to obtain~~
26 ~~authorization prior to the provision of emergency services and care~~
27 ~~necessary to stabilize the enrollee's emergency medical condition.~~

28 ~~(c) Payment for emergency services and care may be denied~~
29 ~~only if the health care service plan, or its contracting medical~~
30 ~~providers, reasonably determines that the emergency services and~~
31 ~~care were never performed; provided that a health care service~~
32 ~~plan, or its contracting medical providers, may deny reimbursement~~
33 ~~to a provider for a medical screening examination in cases when~~
34 ~~the plan enrollee did not require emergency services and care and~~
35 ~~the enrollee reasonably should have known that an emergency did~~
36 ~~not exist. A health care service plan may require prior authorization~~
37 ~~as a prerequisite for payment for necessary medical care following~~
38 ~~stabilization of an emergency medical condition.~~

39 ~~(d) If there is a disagreement between the health care service~~
40 ~~plan and the provider regarding the need for necessary medical~~

1 care, following stabilization of the enrollee, the plan shall assume
2 responsibility for the care of the patient either by having medical
3 personnel contracting with the plan personally take over the care
4 of the patient within a reasonable amount of time after the
5 disagreement, or by having another general acute care hospital
6 under contract with the plan agree to accept the transfer of the
7 patient as provided in Section 1317.2, Section 1317.2a, or other
8 applicable statute. However, this requirement shall not apply to
9 necessary medical care provided in hospitals outside the service
10 area of the health care service plan. If the health care service plan
11 fails to satisfy the requirements of this subdivision, further
12 necessary care shall be deemed to have been authorized by the
13 plan. Payment for this care may not be denied.

14 (e) A health care service plan may delegate the responsibilities
15 enumerated in this section to the plan's contracting medical
16 providers.

17 (f) Subdivisions (b), (c), (d), (g), and (h) shall not apply with
18 respect to a nonprofit health care service plan that has 3,500,000
19 enrollees and maintains a prior authorization system that includes
20 the availability by telephone within 30 minutes of a practicing
21 emergency department physician.

22 (g) The Department of Managed Health Care shall adopt by
23 July 1, 1995, on an emergency basis, regulations governing
24 instances when an enrollee requires medical care following
25 stabilization of an emergency medical condition, including
26 appropriate timeframes for a health care service plan to respond
27 to requests for treatment authorization.

28 (h) The Department of Managed Health Care shall adopt, by
29 July 1, 1999, on an emergency basis, regulations governing
30 instances when an enrollee in the opinion of the treating provider
31 requires necessary medical care following stabilization of an
32 emergency medical condition, including appropriate timeframes
33 for a health care service plan to respond to a request for treatment
34 authorization from a treating provider who has a contract with a
35 plan.

36 (i) The definitions set forth in Section 1317.1 shall control the
37 construction of this section.

38 (j) (1) A health care service plan that is contacted by a hospital
39 pursuant to Section 1262.8 shall, within 30 minutes of the time
40 the hospital makes the initial telephone call requesting information,

1 either authorize poststabilization care or inform the hospital that
2 it will arrange for the prompt transfer of the enrollee to another
3 hospital.

4 (2) A health care service plan that is contacted by a hospital
5 pursuant to Section 1262.8 shall reimburse the hospital for
6 poststabilization care rendered to the enrollee if any of the
7 following occur:

8 (A) The health care service plan authorizes the hospital to
9 provide poststabilization care.

10 (B) The health care service plan does not respond to the
11 hospital's initial contact or does not make a decision regarding
12 whether to authorize poststabilization care or to promptly transfer
13 the enrollee within the timeframe set forth in paragraph (1).

14 (C) There is an unreasonable delay in the transfer of the enrollee;
15 and the noncontracting physician and surgeon determines that the
16 enrollee requires poststabilization care.

17 (3) A health care service plan shall not require a hospital
18 representative or a noncontracting physician and surgeon to make
19 more than one telephone call pursuant to Section 1262.8 to the
20 number provided in advance by the health care service plan. The
21 representative of the hospital that makes the telephone call may
22 be, but is not required to be, a physician and surgeon.

23 (4) An enrollee who is billed by a hospital in violation of Section
24 1262.8 may report receipt of the bill to the health care service plan
25 and the department. The department shall forward that report to
26 the State Department of Public Health.

27 (5) For purposes of this section, "poststabilization care" means
28 medically necessary care provided after an emergency medical
29 condition has been stabilized.
