

AMENDED IN SENATE AUGUST 16, 1999

AMENDED IN SENATE JUNE 22, 1999

AMENDED IN ASSEMBLY MAY 28, 1999

CALIFORNIA LEGISLATURE—1999–2000 REGULAR SESSION

**ASSEMBLY BILL**

**No. 141**

---

---

**Introduced by Assembly Member Knox**

January 11, 1999

---

---

An act to add and repeal Section 4013 of the Business and Professions Code, relating to pharmacies, and making an appropriation therefor.

LEGISLATIVE COUNSEL'S DIGEST

AB 141, as amended, Knox. Pharmacies.

Existing law provides for the California State Board of Pharmacy to regulate and enforce laws regarding the practice of pharmacy, as specified. Existing law also provides for the continuous appropriation of moneys in the Pharmacy Board Contingent Fund for the purposes of the board.

This bill would require the board to conduct a study regarding the incidence of medication errors in pharmacies, as specified, and to report these findings to the Legislature on or before December 1, 2004. The bill would provide that information collected and produced in the course of the study be used for research purposes only and disclosed solely for determining the validity and propriety of the study. The bill would require the identity of individual pharmacists and pharmacies to remain confidential, as specified, and would

prohibit any information, records, or reports received or generated in connection with the study from being used for disciplinary purposes, as specified, or from being subject to discovery in connection with any administrative, civil, or criminal investigation or proceeding. The bill would make an appropriation by expanding the purposes for the expenditure of funds from the Pharmacy Board Contingent Fund, but would limit the expenditure from the fund for the study and expenses in connection therewith to ~~\$600,000~~ \$1,041,000 and would require the board to reimburse the Pharmacy Board Contingent Fund in an amount equal to any private funding received for these purposes.

The bill would provide for the repeal of these provisions as of January 1, 2005, unless a later enacted statute deletes or extends that date.

Vote: majority. Appropriation: yes. Fiscal committee: yes. State-mandated local program: no.

*The people of the State of California do enact as follows:*

1 SECTION 1. Section 4013 is added to the Business and  
2 Professions Code, to read:

3 4013. (a) The board shall conduct a study of the  
4 incidence of medication errors in pharmacies in  
5 California. The study shall employ a methodology that  
6 uses “test” prescriptions distributed to a statistically  
7 significant cross section of pharmacies in the state. The  
8 board shall ensure that the study is based on sound  
9 scientific and analytic principles.

10 The board shall issue a report of its findings from the  
11 study to the Legislature on or before December 1, 2004.

12 (b) The purpose of the study described in subdivision  
13 (a) is to measure the frequency and describe the type of  
14 medication errors occurring in California pharmacies and  
15 to improve patient safety, and identify broader issues that  
16 may become the basis for instituting professionwide  
17 standards and changes.

18 (c) The board shall have the authority to contract with  
19 outside entities to design the study, collect and analyze  
20 data results, and disseminate findings.

1 (d) “Test” prescription, as used in this section, refers  
2 to a prescription that is prepared solely for the purposes  
3 set out in this section and issued only according to  
4 standards established for the study conducted pursuant to  
5 this section, and not for the actual medical needs of a  
6 patient. All prescription containers, including all drugs,  
7 obtained through such a prescription shall be forwarded  
8 to the board, or its designee immediately after  
9 examination for purposes of the study conducted  
10 pursuant to this section and shall thereafter remain under  
11 the board’s custody and in its possession until destroyed.

12 (e) The information collected and produced in the  
13 course of the study shall be used for research purposes  
14 only and shall be disclosed for the sole purpose of  
15 determining the validity and propriety of the study. The  
16 identity of individual pharmacists and pharmacies shall  
17 remain confidential and shall not be disclosed to any  
18 person or private, public, or other governmental entity.  
19 No information derived from the study shall be used for  
20 disciplinary purposes by the board or any other  
21 government agency. The information, records, and  
22 reports received or generated in connection with the  
23 study shall not be subject to disclosure or discovery in  
24 connection with any administrative, civil or criminal  
25 investigation or proceeding.

26 (f) Up to ~~six hundred thousand dollars (\$600,000)~~ *one*  
27 *million forty-one thousand dollars (\$1,041,000)* may be  
28 expended from the Pharmacy Board Contingent Fund by  
29 the California State Board of Pharmacy for the purpose  
30 of conducting the study required by this section and  
31 meeting the State Board of Pharmacy’s expenses in  
32 regard therewith. The board shall reimburse the  
33 Pharmacy Board Contingent Fund in an amount equal to  
34 any private funding obtained by the board for these  
35 purposes.

36 (g) This section shall cease to be operative on January  
37 1, 2005, and on that date is repealed, unless a later enacted

- 1 statute that is enacted on or before that date deletes or
- 2 extends that date.

O
